METAVVERSE TOUR CONCERT

The seven TOGGLES lived one TOGGLES on each floor of a seven-story structure called Nut Hexagon as trainees, and there was a hexagonal power logo in the center of each floor.

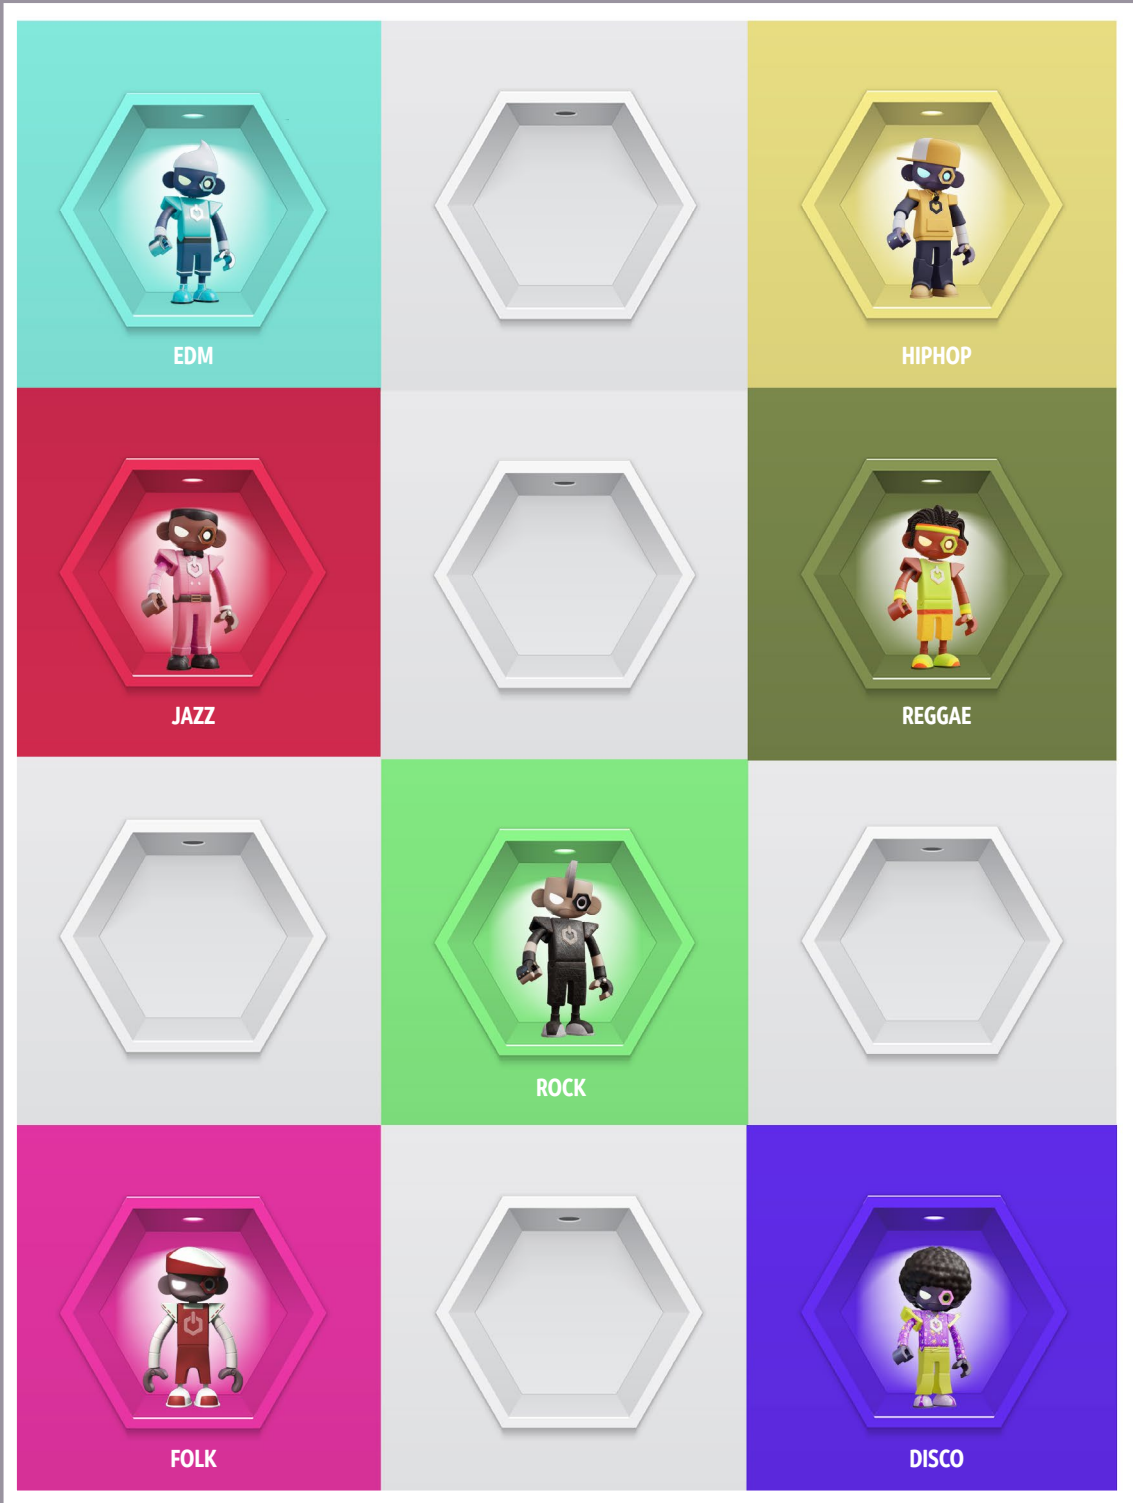

Unlike structures that even look bleak, when EDM music with a hip vibe on the first floor, people who were panicked by falling digital assets began to gather in front of the structure on by one.

I managed to get through the entrance and into the first floor where the EDM TOGGLES were.

SPARKYJACK

The DJ box looks unique

It's a DJ box that I developed myself... The AI moles on the box make various sounds depending on the angle and intensity of the hammering, the gender ratio of the clubbers, and the type of dance that day.

I've heard that AI moles are starting to have emotion with your rather aggressive

hammering and are boycotting DJing...

I would rather not say.

I've heard you're the owner DJ of the "Hexagon" club.

There's only one reason I took over Hexagon from "VICTORY". I wanted to create an eco-friendly club where all the club's instruments and lights are powered solely by solar energy.

Lastly, what's your goal to do EDM music?

I would like to hold an EDM festival in Hexagon where only avatar musicians participate.

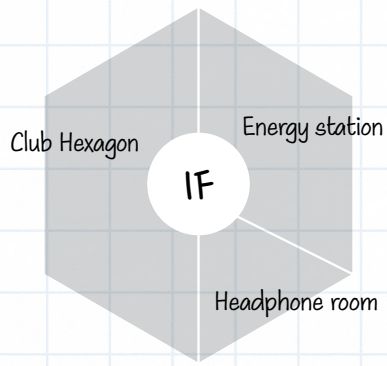

The audience also participates as an avatar and enjoys music and dance 24 hours a day with musicians who are neither old nor exhausted.

▲ It is said that he supplies power as if he were shooting a strong wind himself when the club's lights go out, but the club was still dark after shooting several strong winds.

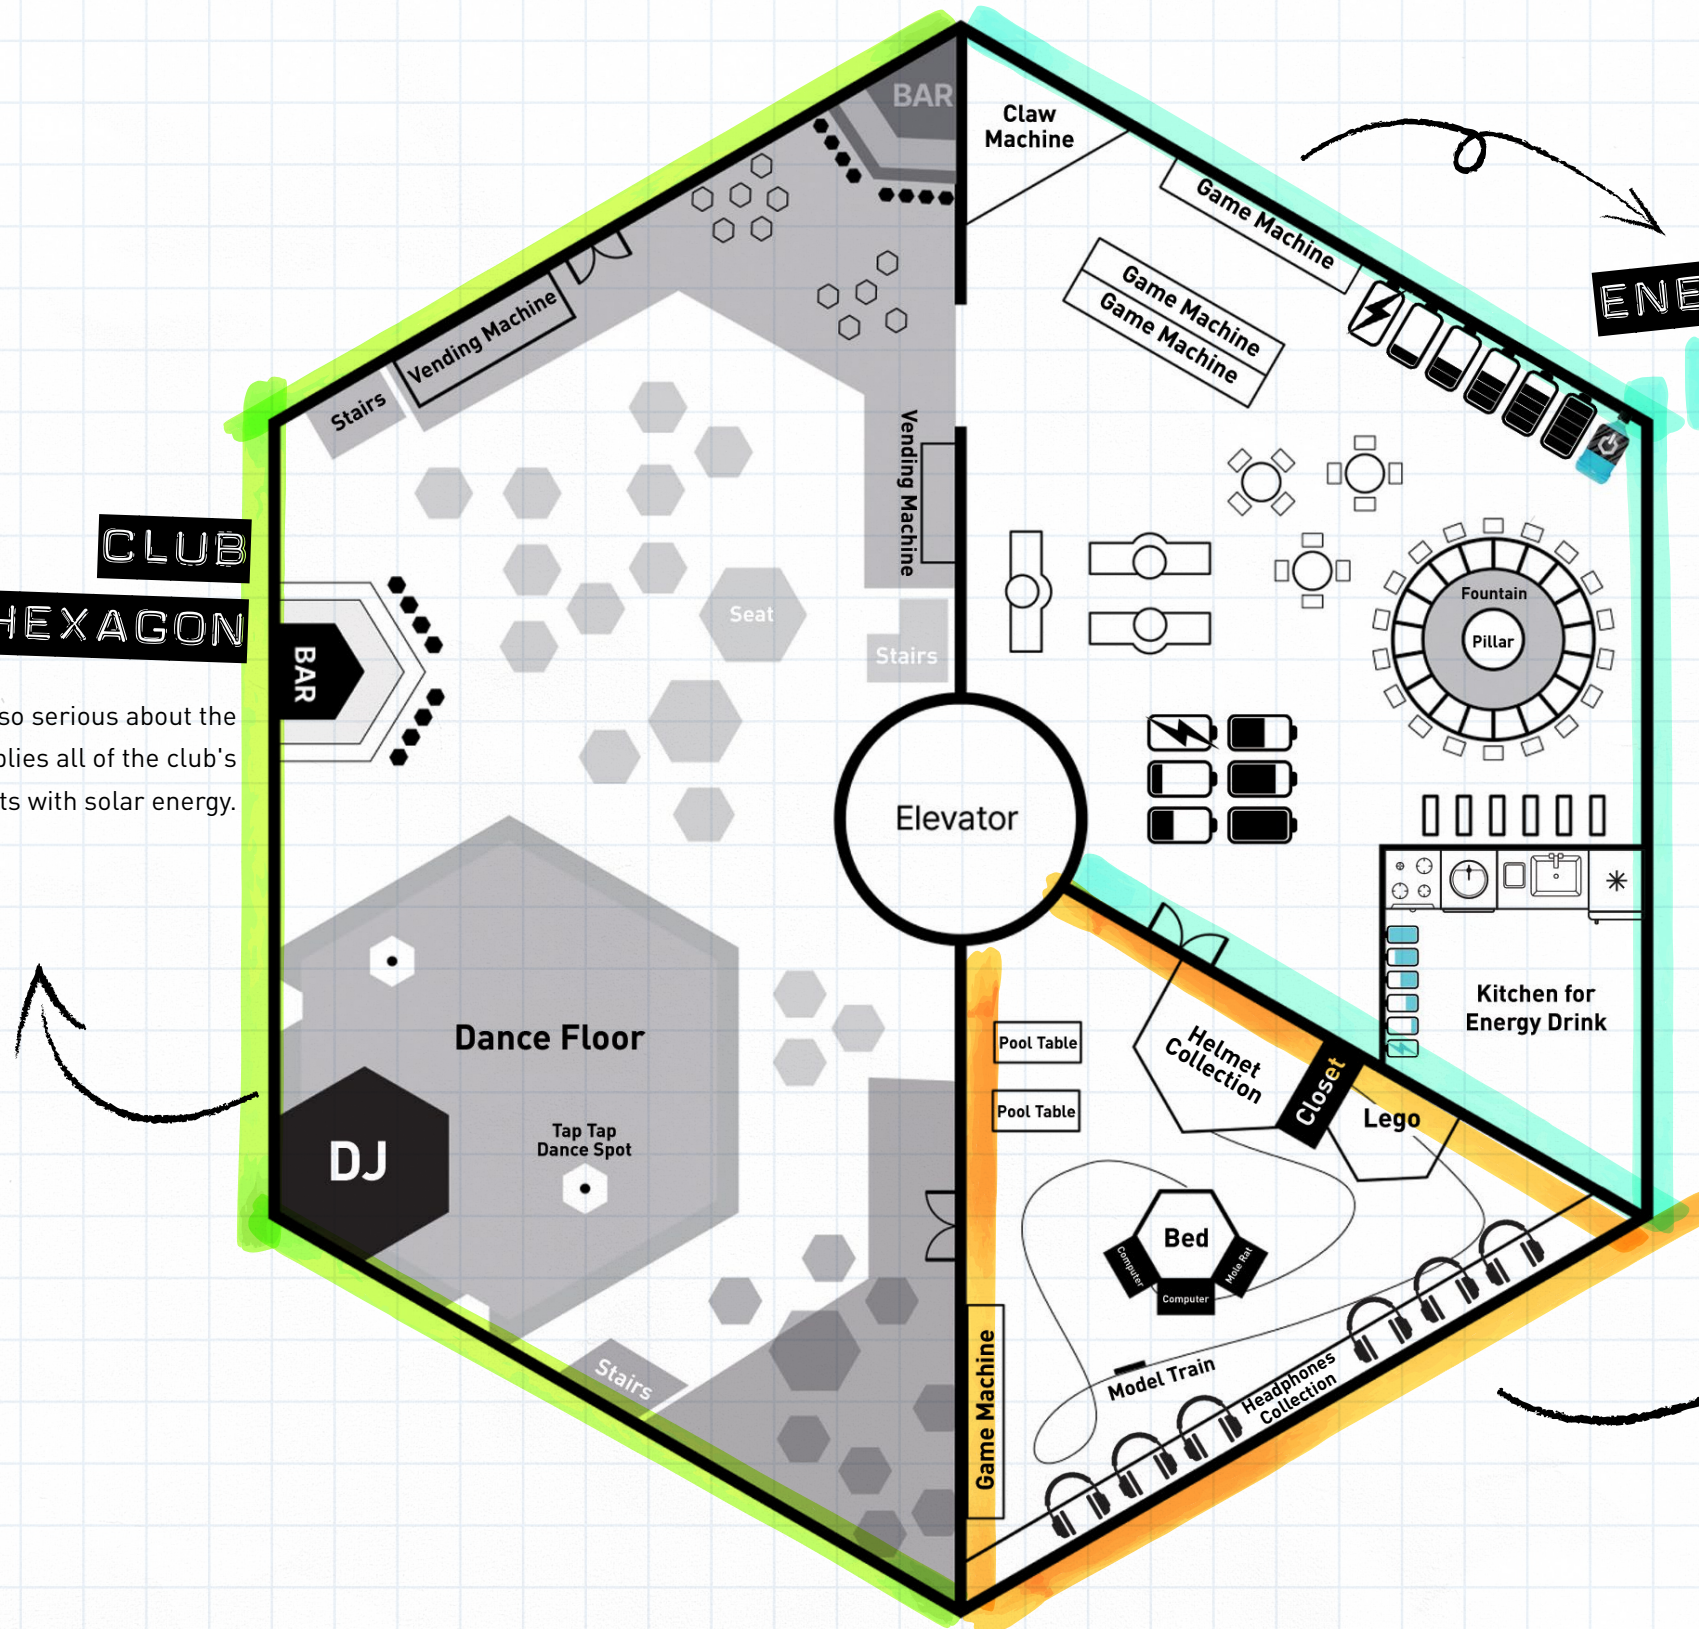

▲ The look of showing a hammering DJ demonstration during the interview

▲ It is said that he enjoys wearing clothes made of eco-friendly materials outside the club.

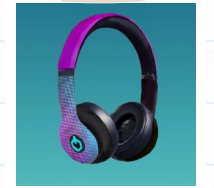

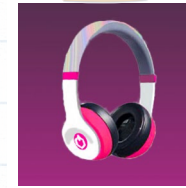

CLUB HEXAGON

SPARKY JACK is so serious about the environment that it supplies all of the club's instruments and lights with solar energy.

ENERGY STATION

He likes to develop drinks of new recipes on the energy charging station.

HEADPHONE ROOM

If a singer has a dressing room, he has a 'headphone room'.

"It's hard to meet people because I'm shy. So, I developed a gorilla Muppet beatboxer."

HIPHOP TOGGLES
BURGERDOGG

The gorilla-shaped beatboxer looks quite unique.

I'm so shy for a rapper. So, it's not easy to collaborate with people, so I made it. When I put it on like gloves, a beat came out naturally to my rap, but from some point on, the gorilla talked to

me. My rap is improving day by day. It was really uncomfortable. Should I meet people again?

The mole on the EDM TOGGLES's DJ box is starting to have emotion as well.

Let's not talk about it.

Rival... Are you in that kind of relationship?

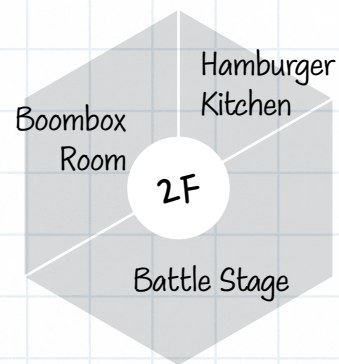

I don't think of EDM as music, and I don't think of DJ as a musician.

When it mentioned about EDM TOGGLES, he who is shy was suddenly became firm and began to pour out raps dissing him with a beatboxer.

▲ It wasn't easy to understand his behavior of occasional standing up and fluttering pose during the interview.

In the boombbox room, he sometimes chooses a boombbox of design to suit the mood of the day, plays music, and enjoys a street dance battle with REGGAE TOGGLES.

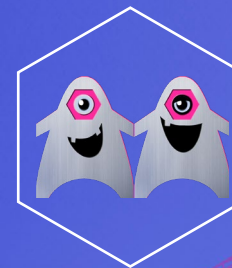

HAMBERGER KICHEN

He enjoys convenience store hamburgers rather than handmade burgers that are uncomfortable to eat because it puts a lot of this and that.

"I started jazz to find the answer to 'How can love change'"

JAZZ TOGGLES
CHOCOROB

You said you would be on stage without chorus dolls from the next tour as the audience liked the chorus dolls more than you.

I started jazz to find the answer to 'How can love change'. I wanted to convey love to the world with jazz when all the other TOGGLES only pursued music that makes money. But the chorus dolls fell out of my love and chose the love of the audience...It's the essence of this case.

Is there reason for persisting only pink suits?

I've heard that the producer would dress me in a different color to make NFT or something. The other TOGGLES thought it would be a lot of money, so they all taken in, right? I will never

wear anything other than pink. Let's talk about music. Which artist do you want to collaborate with?

First of all, I want him/her to have a beautiful appearance, the other is to be an artist who has an open position on cross-over jazz. I think these two things are important for jazz to reach more people.

▲ Chili chocolate is his energizer

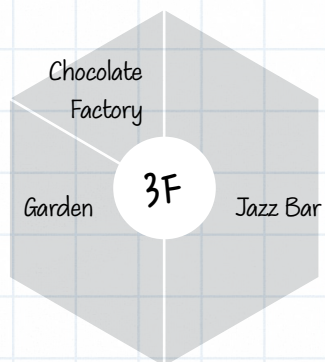

▲ CHOCOROB said that please remove this picture. The fun time with chorus dolls

" 'TOM TOM' was named in honor of two Tom who are friends that did reggae together

REGGAE TOGGLES
MANGORAMA

Why did you name 'TOM TOM' on the reggae carpet?

I had two friends who had grown dream for reggae music together, and all of them were Tom. I got it from there. They're not in the world now, but on the TOM TOM, I feel like I'm doing reggae with them.

I heard that TOM TOM has a special function.

I put the TOM TOM all the performance and dance moves I did when I did reggae with two Tom. So, the feeling of dancing with them is...It's more than just a feeling.

Isn't reggae an alienated genre in these days in a way?

The day will surely come when the reggae festival will be held at the Metaverse

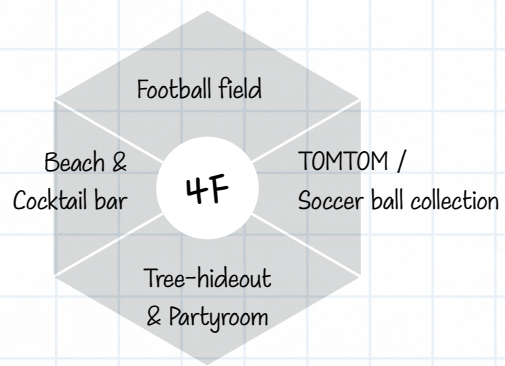

Caribbean Beach. I have a business trip planned to Jamaica next week to find a collaborative reggae musician. Of course, the producer needs to approve the business trip fee. I'd like to scour the streets of the birthplace of this genre to find young reggae prospects. That's where the reggae revival will begin.

▲ MANGORAMA that enjoys resting while eating mango at Metaverse Caribbean Beach

▲ It is said that two Tom's all movements of dance were put in TOM TOM. I wanted to ask if you wanted to make the dance data as an NFT, but I had to put up with it.

▲ After the interview that asked to write "I'm always grateful" to CEO Yang Woo-jin, (https://www.instagram.com/papa_of_toggles/) the producer who reproduced even a palm tree on the Metaverse, I got a text message from him.

Interview

DILIGENT APE REPORTER

"The Metaverse here, which was presented as a refuge in the real world, is now full of anger. My rock gets angry on behalf of angry people."

ROCK TOGGLES
KNUCKLEPUNCH

Why do you think people like your rock music?

It's probably because everyone's angry. When I start shouting, the atmosphere rises to the point where violence occurs at any moment, but the concert hall becomes a more peaceful place than the cathedral with the ending of my song. That's why I do rock music. Making angry people less angry.

► He said he was usually a very quiet person and asked to use this photo, which is a photo of a Nut Hexagon ID card. When protesting that the photo selection was the reporter's own authority, his ax blade began to turn red.

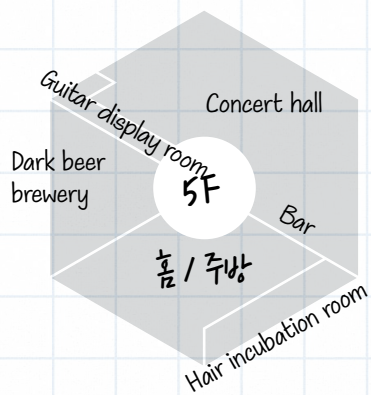

I heard that your dream is headbanging. Is it possible?

(Anger crossed his face at this question, and the ax on his head seemed to be pulled out and flying to me at any moment.) It's not possible in terms of trichology, but it's possible in terms of music.

Which rocker do you want to collaborate with?

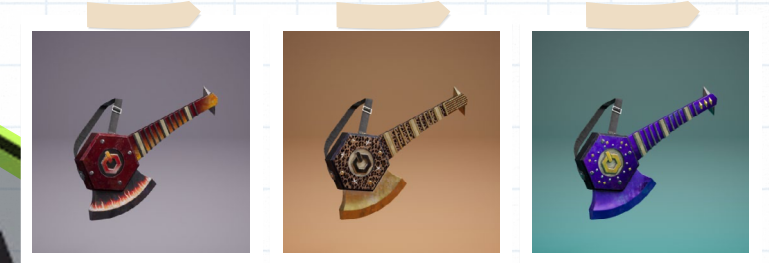

I don't know if there are any school bands that do rock music these days, but I want to do a bit of fresh rock now, and wouldn't it be possible if I were with them?

► KNUCKLEPUNCH that scratching the floor of the concert hall with an ax of the guitar on the Metaverse 'angry men's tour'

▲ 그녀와의 콜라보가 이루어질 것이라 믿고 하루도 빠짐 없이 커피를 들고 그녀를 기다리는 커피잼.

Let me ask you a straightforward question. Is the singer who suggested collaboration a girl group?

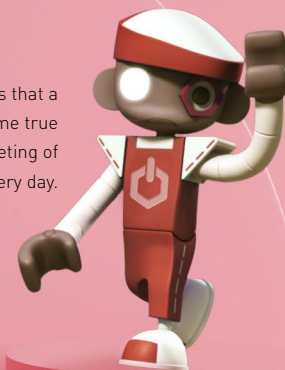

Girl groups don't like folk music. They probably don't even know what kind of music a fork is.

Then who is it? Many readers are curious. If it's not a group, is it a solo artist?

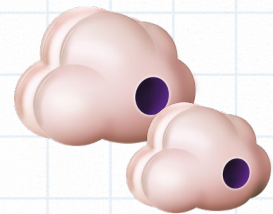

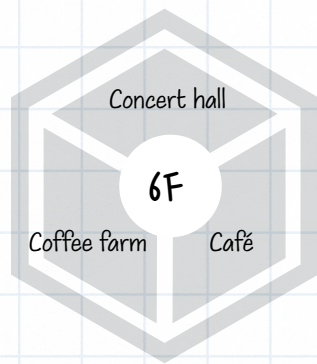

If she's going to perform here on the sixth floor of Nut Hexagon, I'd like to do her song and the best fitting accompaniment in the world with 'HEAVEN STRING'. I wait she comes to my sixth floor of Nut Hexagon like magic one day and to be my 'music bolt'.

DISCO TOGGLES GUMBALL

I heard that DANCER TOGGLES lived on the 7th floor of Nut Hexagon originally, but you won the battle for territory and took the 7th floor.

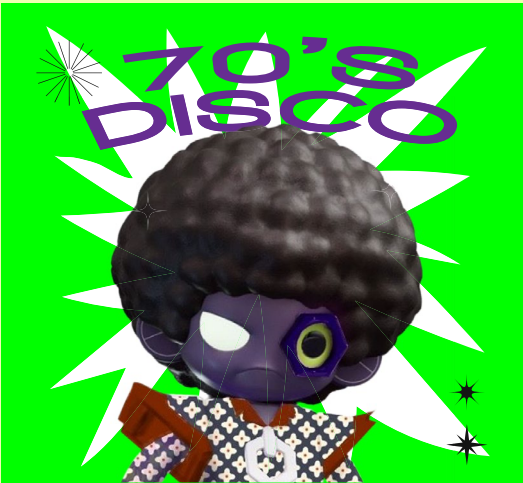

It is true that the 7th floor was originally a DANCER TOGGLES space.

If the 7 TOGGLES succeeded and it were built the 8th floor next year, I was practicing with

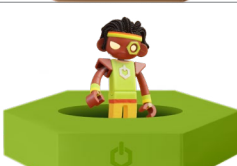

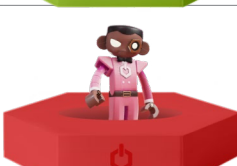

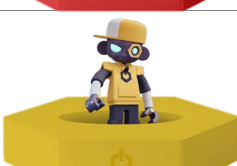

CLASSIC, GUKAK, and R&B TOGGLES to take the space. But our producer, CEO Yang Woo-jin, (https://www.instagram.com/papa_of_toggles/) is very fickle and gullible, anyway... he's kind of like that. Moreover, he's very old, so he wanted to do music that the time when he was playing from his old days. That's why he brought me to the 7th floor.

Isn't it a bit out of step with the slogan of Saturday night fever in the era where everyone goes clubbing on Friday?

In the age of disco, We worked until morning on Saturday. Saturday night after six and a half days of hard work had to be the hottest and most fantastic night at the disco club.

MUSIC COLLABORATION -
RETURN TO NUT HEXAGON."

FIRST INVITAION STAGE

"It's the stage of sending invitations to human singers."

"But before that, they have to spend a hard time practicing inside
Nut Hexagon as good as K-pop idols.
But was it September 2021?... COFFEEJAM sent an invitation to a
singer even though I stopped him since it's not the right time yet."

▲ A collaboration invitation that COFFEEJAM sent to a singer.

SECOND COLLABORATION STAGE

"When a collaboration singer is chosen, we design a collaboration avatar with the singer and the TOGGLES firstly"

"When the avatar design is end, we will release a song, shoot a music video, and do music collaboration activities."

THIRD RETURN

"Just because activities in the real world are over doesn't mean the collaboration is over."

"The human singer itself will remain in the real world, but his avatar, who collaborated with TOGGLES, will return to Nut Hexagon here and continue his activities on Metaverse."

INFINITE TOGGLES

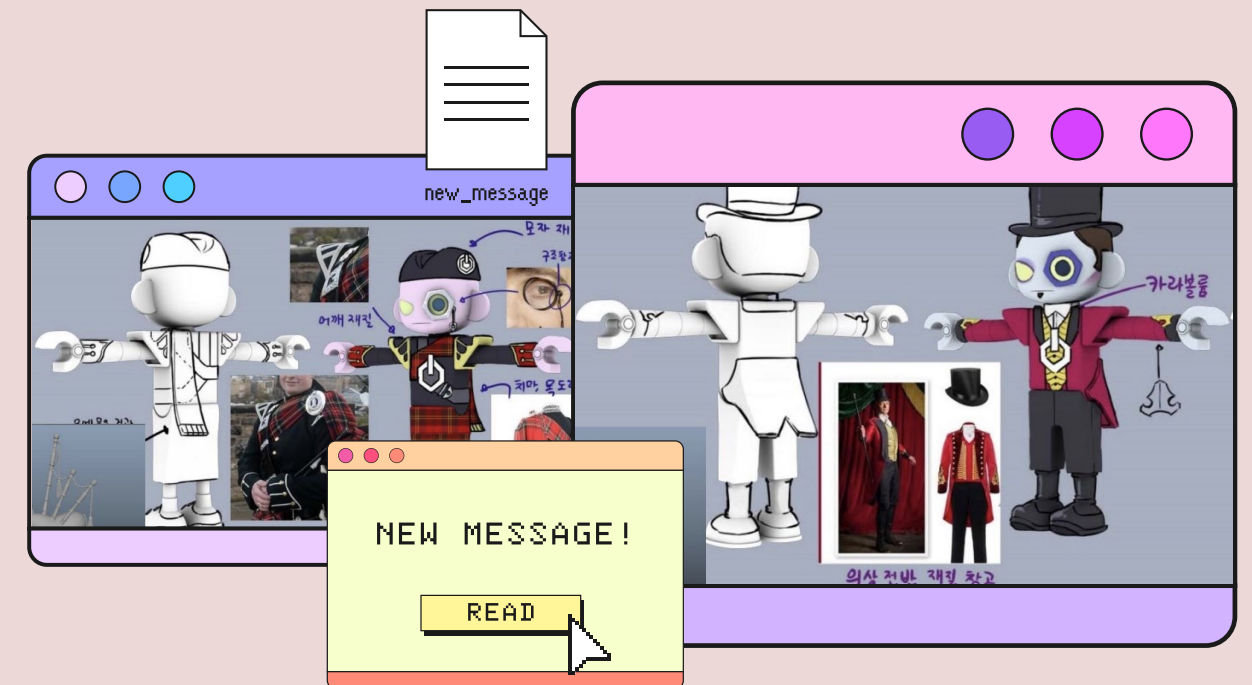

"TOGGLES is endless"

"What will happen after all the TOGGLES, up to the 7th floor, debut through collaboration? The Nut Hexagon will be gone up again from the 8th floor, and a new genre of TOGGLES will be created.

Because there's no end to music genre, and TOGGLES is a character musician by music genre."
